

## The Fate of Fenella: by 24 authors including Arthur Conan Doyle and Bram Stoker

The publishers claim with no little satisfaction that in this book they offer the reading public a genuine novelty. The idea of a novel written by twenty-four popular writers is certainly an original one. The ladies and gentlemen who have written *The Fate of Fenella* have done their work quite independently of each other. There has been collaboration but not consultation. As each one wrote a chapter it was passed on to the next, and so on until it reached the hands of Mr. F. Anstey, whose peculiar and delightful humour made him a fitting choice for bringing the story to a satisfactory close. (From the 1892 edition.) This new edition includes a few footnotes giving brief biographical details of the authors and some of the sources of the epigrams that they used. Also included is a contemporary review that was published in *The Spectator* magazine.
