

## The Tara Shores Thrillers Omnibus Edition (Books 1-3): Wired Kingdom, kiDNApped, Solar Island

3 full thriller novels in one convenient, price-discounted package: The collected adventures of FBI Special Agent Tara Shores, Books 1-3, here together in this Omnibus Edition. **WIRED KINGDOM**

When a blue whale tagged with a web-cam broadcasts a brutal murder at sea, FBI Special Agent Tara Shores finds herself navigating an ocean of manipulation and deceit in a deadly race to reach the 100-ton creature before an unknown killer can destroy the digital evidence it carries.

**kiDNApped** A priceless biotechnology, an FBI agent, and an unspeakable act of familial betrayal collide in a tropical kidnapping more twisted than a DNA double helix. When a renowned scientist with a solution for global warming is kidnapped at sea, FBI Special Agent Tara Shores must unravel a high-tech trail of S.O.S. messages encoded into the DNA of living cells. As each decoded message brings Tara nearer to the missing genius, it also takes her farther from help than she ever thought possible. **SOLAR ISLAND**

For more than a year, Solar Island, the creation of revolutionary engineer Jacob Lightner, has traversed the Pacific Ocean, reaping the sun's endless bounty of energy and providing electricity to developing nations. But is Lightner a benevolent genius, pioneering a new path to energy independence and sustainability? Or is he a power-hungry despot, intent on using the power of Solar Island to reshape the political landscape of the Pacific Rim, willing to murder anyone who gets in his way? Responding to a cryptic message, FBI Special Agent Tara Shores goes undercover to untangle the web of intrigue and oppression that conceals Lightner's true purpose. But nothing can prepare her for the struggle that will test the limits of her physical, mental and emotional endurance...the battle to control Solar Island. **PRAISE FOR RICK CHESLER'S TARA SHORES SERIES** A whale of a

tale by first-time author Rick Chesler involving modern-day pirates, media moguls, and a sexy federal agent -- all chasing a cetacean-mounted camcorder and the crucial piece of evidence needed to resolve a murder. ~Steve Alten, NY Times bestselling author of MEG WIRED KINGDOM is a fast-paced thriller that is one third deep-sea adventure, one third FBI sleuthing and one third awesome. A superb debut novel and killer concept. ~Jeremy Robinson, author of PULSE and INSTINCT. Chesler melds science and adventure with the brilliant command of the late Crichton. kiDNApped takes readers on a Hawaiian journey they wont soon forget. ~Douglas Corleone, author of Night on Fire This is a summer page turner...Remember when Michael Crichton was good? This is who Im reminded of when I read Wired Kingdom. ~Geekscribe.com Great scientific concepts that are based in reality, especially the secret messages encoded in DNA...Vivid setting in Hawaiian islands with lots of local color and local detail. Good pacing will keep you reading to the end. FBI agent Tara Shores is one cool, competent chick. ~ScienceThrillers.com The lush Hawaiian setting is conveyed in a way that immerses the reader in the story. Theres a strong scientific element to the plot, but is handled in a way that keeps the book accessible. kiDNApped is an exciting techno/science thriller in the spirit of Michael Crichton. ~MEGALITH reviews Chesler really had me with all the clever science experiments, fast-paced chase scenes, gun action and original twists and turns. I need a crow bar to pry myself away. ~TheNovelBlog.com ABOUT THE AUTHOR Rick Chesler holds a Bachelor of Science in marine biology and has had a life-long interest in the ocean and its creatures.
